Other Experience

- Participated in international student meetups as part of the ERASMUS program in Clermont-Ferrand and Toulouse (@worldtopesn)
- Passionate about language learning, history, and astrophysics
- Currently training for marathons, with a focus on endurance and discipline
- Certification: Six Sigma Yellow Belt and SAP FIORI
- LinkedIn profile:

Salah AITELMOUMEN

SAP Consultant

SAP Technical Consultant specialized in ABAP development and SAP Fiori certified. I enjoy designing efficient solutions aligned with business needs. I'm particularly drawn to the SD module for its close connection to sales and delivery processes. Currently exploring SAP BTP and cloud technologies to broaden my skillset. Curious and committed, I aim for a techno-functional role where technology creates real business impact.

Professional Experience

SAP Consultant

Since October 2023 **SOPRA STERIA GROUP** Toulouse

- Designed and developed SAP solutions using ABAP, SAPUI5, and Fiori to meet business requirements.
- Created RESTful and OData services via SAP Gateway to integrate SAP with external systems.
- Participated in Agile/Scrum projects with task tracking and sprint planning through JIRA.
- Performed unit and end-to-end testing to ensure the quality and reliability of deliverables.
- Actively engaged in technology watch activities on SAP BTP, generative AI, and cloud-based solutions.
- Collaborated with cross-functional teams and contributed to technical decision-making processes.

SAP Consultant intern

From March 2023 to September 2023 **SOPRA STERIA** Toulouse

- Developed SAP applications in ABAP (ALV reports, function modules, BAPIs) with a strong focus on code clarity and performance.
- Created SmartForms and managed printing processes.
- Collaborated with the AMS (Application Maintenance Services) team to provide application support, manage tickets, and resolve incidents.

Education

Preparatory Classes – TSI (Technology and Industrial Sciences)

From September 2020 to September 2023

Ibn Baja Med School Morocco

Master's Degree in Engineering

From September 2020 to September 2023

SIGMA CLERMONT Aubière, France

Specialization: Industrial Engineering and Process Management

Internal Training

- SAP BTP Cloud Overview
Introduction to the key concepts of SAP Business Technology Platform (BTP), with a focus on cloud solutions and their integration within the SAP ecosystem.
- SAP Gateway and SAP UI5
Comprehensive training on implementing RESTful and OData services via SAP Gateway, as well as developing interactive user interfaces using SAP UI5.
- Logistics Modules and SAP EWM (Extended Warehouse Management)
In-depth training on SAP logistics modules with a special focus on warehouse management through SAP EWM. Covered key functionalities such as inventory management, logistics flow optimization, and integration with procurement and distribution processes.
